**Souverän® 805 Blue Dunes**

Gaze at the new Series Souverän® 805 Blue Dunes and find yourself fascinated by a world of colors. Contrasts of shadow and light interplay in hues from brilliant azure to deep, midnightblue. The composition of flowing silhouettes displays distinct patches of color, yet it also harmoniously unites the varying shades of blue. Like the color of sand dunes under a midnight moon, the interplay of blues in each 805 Blue Dunes writing instrument is unique.

The 18-karat gold nib is completely rhodium-plated, additionally etched with the Pelikan logo and is available in sizes of extra-fine, fine, medium, and broad.

A ballpoint pen to match this beautiful fountain pen is also featured in the range.

These Souverän® pens come in a practical folding box. If so desired, you can order gift boxes separately. We also recommend our Edelstein® Ink Topaz to match with this series.
